

This document states the visiting agreement between the Oakland ARTCC and the Honolulu Control Facility. The acceptance of this agreement allows the Oakland ARTCC to complete the following:

- S1 and Above- the ability to control minor airspace within HCF without having to complete a checkout.
- Visitors under this agreement are not subject to the controller activity requirements listed in the HCF GOP, however it is understood that at least 50% of their monthly controlling hours must be with their home ARTCC.
- Visiting privileges may be terminated for any violation of the HCF GOP, VATSIM COC, VATSIM COR, VATUSA DP001. This includes any verbal or non verbal abuse of other HCF controllers or staff. Additionally visiting controllers are representatives of HCF while staffing a position within HCF, therefore any representation that brings discredit upon HCF will result in removal and an incident filed with the Deputy Division Director: ATS.
- HCF Senior Staff reserves the right to conduct a GRP check on any controller that is suspected of not meeting competency for their rating.
